CBM PRAYERLINE

SOUTH SUDAN

In addition to the war and famine that is causing great suffering to the population in South Sudan, there has been a cholera outbreak since 2016 which is spreading to new areas. Please pray against the continued spread of cholera, for treatment to be made available, for resources for prevention and for those that have lost loved ones as a result to the outbreak. May God's mercy fall in abundance.

GLOBAL

March 22 was World Water Day, Pray for those who do not yet have access to safe drinking water: those affected by drought, those who face water shortages, and the millions of people who die from preventable water-borne diseases each year. Through God's strength, we can work to change that. May He propel us to action, may we provide resources where we can, and may we all work together to take care of useable water sources everywhere.

Please pray for our global partnerships. Christian leaders in the developing world can sometimes feel overwhelmed by challenges and expectations of western partners for transparent management of resources and personnel. CBM is committed to actions that strengthen our partners. Project management. Strategic planning. Preparation of budgets. Financial reports. Monitoring and evaluating outcomes. Information technology. All these crucial needs and more are part of the development and demands of leadership. Please pray for this crucial sector and for resources for our partners to be able to accomplish their work effectively.
